TECHNICAL SKILLS

- .NET (Core 8, Framework)
- ASP.NET
- Azure DevOps
- Azure Portal
- Azure Data Factory
- Microsoft Entra ID
- SQL (Microsoft SQL Server, MySQL, SQLite)
- No-SQL (MongoDB)
- SOLID principles
- TDD
- DDD
- HTML
- JS
- CSS
- XML
- Docker
- Postman
- Bootstrap
- Clean architecture
- EntityFramework, LINQ

PROFILE

Experienced .NET Developer and Azure DevOps Engineer with nearly seven years in backend development (.NET Framework & .NET Core) and a postgraduate degree in Cybersecurity. Passionate about problem-solving, optimizing infrastructure, and enhancing service quality. Seeking a stable team where I can contribute expertise, refine systems, and grow as a developer and leader.

WORK EXPERIENCE

BlueCode Solutions (Archipel Academy)   2023 - PRESENT
Senior backend and DevOps developer

Tasks:
- Manage existing Azure pipelines (Bicep, Terraform) for all the Backend, Frontend and AI projects.
- Create new projects based on the Clean architecture focus and deliver the needed Infrastructure as Code in order to create and deploy all the needed resources in Azure.
- Resolve client bug and request tickets in a timely manner using the FreshDesk platform.
- Implement the LTI 1.3 and SCIM standards within the .NET applications.
- Integrate existing applications with external ones.
- Debug and resolve issues with the platform. Those were mainly performance issues, bugs and platform uptime-related issues.
- Manage Azure resources such as granting permissions, update the network policies, perform programmed deployments every 3 weeks, etc.
- Build new applications and services using .NET 8.
- Add new functionalities to existing .NET services.
- Cooperate with frontenders to implement and deliver new features.
- Manage SQL databases performing backups, performance optimizations and migrations from one server to another.

Technologies:
- .NET 6 - 8
- .NET Framework 4.8
- Azure Data Factory
- Azure DevOps
- Azure Portal
- Microsoft Entra ID
- DDD & TDD
- SOLID principles
- Scrum
- Clean architecture
- API Testing
- OpenID

- Git (Github, Bitbucket, Azure Repos)
- React
- Vue.JS
- IONIC
- GO
- Server management
- VM management
- S/FTP management
- VPN
- Jenkins
- JIRA
- FreshDesk

PROJECT SKILLS

- Project management
- Public relations
- Teamwork
- Technical analysis
- Technical writing
- Product development
- Project maintenance
- Organization and time management

PERSONAL SKILLS

- Time Management
- Effective Communication
- Self-motivated
- Multitasking abilities
- Problem-solving attitude
- Attention to detail
- Responsible
- Flexible and adaptable
- Active listening
- Testing and maintenance
- Testing automation
- Willingness to learn new things

LANGUAGES

- Bulgarian (native)
- Spanish (native)
- English (C2) - Certificate

NTT Data   2018 - 2023
Software analyst/Full-stack developer

Tasks:
- Balance multiple projects by completing and updating documentation, managing scope and adjusting schedules.
- Design, develop, and integrate software solutions based on business requirements and objectives.
- Complete software development lifecycle from requirement analysis to test planning, test case development and test execution.
- Offer input for complex documents to support client-ready final versions.
- Develop diagrams to describe and lay out logical operational steps.
- Analyze existing systems and databases and recommend enhancements to solve business needs.
- Troubleshot incidents reported by end-users to schedule system changes and identify permanent solutions.
- Mentor and teach team members in both front-end and back-end.

Technologies:
- .NET Framework 4.5 - 4.6.2
- .NET Core 3.1
- .NET Standard 2.1
- ASP
- ASP.NET
- WPF
- SonarQ
- Jenkins

PC BOX (Internship)   2012 - 2012
IT technician

Tasks:
- Installing and configuring computer hardware, software, systems, networks, printers, and scanners.
- Monitoring and maintaining computer systems and networks to ensure smooth operation and to identify and address problems promptly.
- Troubleshooting system and network problems, diagnosing and solving hardware or software faults.
- Providing technical support to end-users either face-to-face, over the phone or via email.
- Conducting regular system backups and data recovery in case of system failures.
- Keeping up-to-date with emerging technologies and industry trends and updating computer systems, software, and hardware accordingly.

EDUCATION

Master in Cybersecurity   2019 - 2020
University of Barcelona

Bachelor in Software engineering   2014 - 2019
University of Alicante

Higher education in computer systems (HNC)   2012 - 2014
IES Marcos Zaragoza

Mid education in computer systems (VET)   2010 - 2012
IES Marcos Zaragoza
